

### Ethylene Glycol

Effective Date: August 11, 2021

Due to ongoing instrument problems, ethylene glycol testing will temporarily switch from in-house testing to send-out testing. Ethylene glycol testing will be available 24 hours per day. However, please be aware that turnaround time will be delayed, with an expected turnaround time of 8 hours. Providers should continue to order LAB5898 as there are no changes in the specimen type with this sendout test. Results will be found under the Miscellaneous sendout test in EPIC chart review. While being sent out, only ethylene glycol, not propylene glycol, results will be obtained.

If you have questions, please contact the Beaumont Laboratory Customer Service Department:

- Farmington Hills, Grosse Pointe, Royal Oak and Troy: 800-551-0488 or 248-551-1155, Option 5
- Dearborn, Taylor, Trenton and Wayne: 800-245-3725, Option 1
